AUCKLAND

12th February 2010

Good Morning Chris and team.

This is a big thank you to you. I have just come back from a golfing holiday (8) games in 10 days. I did not have any twinges of pain in either Knee.

I came to you at Body Wall as an unfit 60 year old over weight with pain in both knees.

After 10 sessions on the wall and 4 sessions of therapeutic massage I cannot believe the change in my wellbeing. I have confidence now in walking up and down stairs with out the fear of pain.

Thank you all.

I would recommend your programme to any who wants to get better without medicine or surgery.

Yours sincerely

Dorothy Pearce
